Subject: Eliot, ME 126 Petition - Extension Notice

US EPA published an extension notice in today's Federal Register providing the Agency an additional six months to respond to the Clean Air Act section 126 petition filed by Eliot, ME (Petitioner) against Schiller Station in Portsmouth, NH.

EPA determined additional time was required to sufficiently analyze and respond to the Petitioner's claims. This action extends the deadline for acting on the petition to no later than May 8, 2014.
